John Carlos Araújo dos Anjos Silva

Arapiraca, AL – Brazil | +55 (82) 99692-0094 |joaocar2003@gmail.com | LinkedIn | Portfolio

Professional Summary

Product Designer with over 2 years of experience in end-to-end digital product development, working from Discovery and UX Research to prototyping, Design Systems, and delivering user-centered solutions. Experience in Information Architecture, multidisciplinary collaboration with Product, Engineering, and Business teams, using Product Thinking, Continuous Discovery, and AI applied to the design process.

Professional Experience

Product Designer – Edge Arapiraca, AL | March 2026 – Present

- Leading the digital product design process, from the Discovery phase to delivery, using User-Centered Design (UCD) and Continuous Discovery practices.
- Planning and conducting UX research, including user interviews, benchmarking, usability testing, and hypothesis validation to support decision-making.
- Structuring User Journeys, User Flows, wireframes, and high-fidelity prototypes using Figma.
- Multidisciplinary collaboration with Product, Engineering, and Business teams to define and implement user-centered solutions.
- Facilitating design reviews, alignment sessions, and validation with stakeholders.
- Development and evolution of Design Systems and component libraries, promoting consistency, scalability, and efficiency in development.
- Applying Artificial Intelligence to the design process to support research, ideation, documentation, and prototyping.

Product Designer – Automining Arapiraca, AL | Oct 2024 – Feb 2026

- Leading the end-to-end design of digital platforms for data-driven operational management.
- Structuring the Information Architecture for complex systems, defining flows, hierarchies, and information organization.
- Development and maintenance of Design Systems and libraries of reusable components.
- Conducting UX research, including hypothesis definition, usability testing, and flow validation using Optimal Workshop and Maze.
- Prototyping solutions and continuous collaboration with development teams for product evolution.

Data-Driven Solutions Designer – Orion Maceió, AL | May 2025 – Dec 2025

- Designing interfaces for distributed urban systems, transforming large volumes of data into intuitive dashboards and visualizations.
- Participation in field research, benchmarking, and data modeling to identify opportunities for improving user experience.
- Structuring workflows and solutions geared towards complex journeys and supporting decision-making.

Academic Background

Bachelor's Degree in Computer Science Federal University of Alagoas (UFAL) | 2022 – 2026

Key Skills

Product Design • UX Design • UX Research • User-Centered Design • Information Architecture •

Interaction Design • User Journey Mapping • User Flows • Wireframing • Prototyping • Design Systems • Responsive Design • Accessibility • Design Thinking • Continuous Discovery • Usability Testing • A/B Testing • Product Metrics • Figma • FigJam • Generative AI • LLMs • HTML • CSS • SQL • Python

LANGUAGES:

Portuguese: Native • English: Advanced • Spanish: Basic
